

ACI UW

NEWSLETTER

JANUARY
2026

History

The ACI UW Student Chapter was established in 2021 and has since earned the ACI Student Chapter Excellence Award in 2023. In 2024 we proudly earned 2nd place in “Best in Show” for Pervious Concrete Cylinder competition, and in 2025 we received 3rd place in aesthetics for Concrete Bowling Ball competition in Toronto.

Mission

We are a team of civil engineering and construction management students representing the University of Washington in biannual concrete competitions at the ACI conventions. **We aim to equip our members through networking, tours, and hands-on projects, preparing them for successful careers.**

Vision

Offering student-centered programs helps graduates become accomplished in technical expertise, business practices, collaboration, leadership skills, and ethical responsibility. National accreditation and state-of-the-art laboratory facilities will ensure exceptional, applied, and experiential learning.

Events

First Mix of the Season

ACI UW held its first mix on January 12. It was a great session for many new members attending for the first time to experience admixtures and different testing procedures for the first time.

1200 Stewart Project

On January 30, ACI toured the 1200 Stewart project. One of the highlights of the visit was seeing how an actual airplane fuselage was integrated around the structural supports. With that and many other unique design elements, it was definitely a site tour to remember.

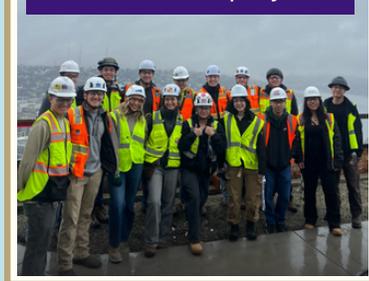

Ivy Cleanup Volunteering

On the 31st, ACI members volunteered at the Forest Steward-led ivy removal event, helping restore native habitat and revitalize the forest.
