

ACI UW

NEWSLETTER

APRIL
2026

History

The ACI UW Student Chapter was established in 2021 and has since earned the ACI Student Chapter Excellence Award in 2023. In 2024 we proudly earned 2nd place in “Best in Show” for Pervious Concrete Cylinder competition, and in 2025 we received 3rd place in aesthetics for Concrete Bowling Ball competition in Toronto.

Mission

We are a team of civil engineering and construction management students representing the University of Washington in biannual concrete competitions at the ACI conventions. **We aim to equip our members through networking, tours, and hands-on projects, preparing them for successful careers.**

Vision

Offering student-centered programs helps graduates become accomplished in technical expertise, business practices, collaboration, leadership skills, and ethical responsibility. National accreditation and state-of-the-art laboratory facilities will ensure exceptional, applied, and experiential learning.

Events

ASUW Fair

On April 17th, ACI UW participated in the ASUW Fair. By tabling at the event, we were able to meet prospective high school students who had recently been admitted to UW. This was a great opportunity to introduce students to ACI, increase awareness of our organization, and connect with many new people.

Potluck

ACI UW hosted our annual potluck on April 24th. The event had a great turnout and featured a wide variety of delicious home-cooked food. Additionally, many new members attended and participated, making it a great opportunity to network and build connections within the club.
