

EUCLID CHEMICAL

Dave Flax, The Euclid Chemical Company

Dave is an accomplished speaker, having conducted dozens of national Webinars for SEA, ASCC, ACI, ICRI, CSI, and more. Webinar attendance has varied from hundreds to over 1,600 attendees. He has spoken on many concrete-related topics at World of Concrete, hundreds of association meetings, and national conventions, including ACI, ICRI, CSI, IPI, SEA, and thousands of individual firms and DOTs.

He earned his Civil Engineering Degree from Rensselaer Polytechnic Institute (RPI) in 1969 and has been involved in construction and concrete for over 45 years. He has been a field engineer, a contractor, a specifier, and a researcher with the Corps of Engineers. He earned his CDT (Certified Document Technologist) and CCPR (Certified Construction Products Representative) certifications from the CSI (Construction Specification Institute). He has been on many national organization committees, including "Repair of Construction Defects," "Guide Specifications," and "Repair Materials and Methods." He has published dozens of articles, was awarded the Extra Yard Award by SCCP for 30+ years of service to the concrete industry, and has a patent for zero-shrinkage concrete with fibers.

He enjoys sharing the knowledge he has gained over all those years.
